

Block Rotary Saw

Machine Specifications

Block Width (mm) – 70 – 120

Block Thickness (mm) – 90

Block Length (mm) – 50 - 200

Blade Ø – 604 mm
Speed – 2800 rpm

Saw Motor – 7.5 kW 4 Pole

Feed Drive – 0.55 kW

Belt Feed – 0.75 kW

Mass (kg) – 990 kg

Dimensions (mm) L – 1800

W – 1400

H – 1100

Power Rating (Kw) – 9

The Pinnacle Block Saw is a single bladed, carousel-style saw, specifically intended at increasing output piece count for stringer and block pallet manufacturing. The design allows for multiple block sizes and adjustments for block lengths to be done effortlessly.

Up to 10 pieces of timber can be loaded at once. The Pinnacle Block Saw is capable of cutting 3800 block per hour while maintaining accuracy. The pieces are ejected and can either be collected manually or fed onto a conveyor.
