

# *Pinnacle Stacker*

## **Machine Specifications**

**Board Width (mm) – 40 – 160**

**Board Thickness (mm) – 15 - 80**

**Board Length (mm) – up to 6600**

**Feed Works – 5.5 kW – Crossfeed**

**Rollers Table – 2.2 kW Geared Motor**

**Saw – 3 kW – Motor x 2**

**Destacker – 7.5 kW Geared Motor**

**Stacker – 7.5 kW Geared Motor**

**Forks – 2.2 kW Geared Motor**

**Dimensions (mm) L – 15000**

**W – 4800**

**H – 3550**

**Power Rating (kW) – 34 kW**

The Pinnacle stacking line is aimed at improving the efficiency of the stacking and drying of timber. This is achieved through the uniformity of the stack and stickers, which in turn maximizes kiln capacity and air flow.

The line can be customized for various lengths, widths, and thicknesses of timbers. The following features can be added:

- Even Ending rollers
- Trim Saws for various lengths
- Customizable stack heights
